Profile

Experienced game developer seeking full-time employment in the computer science field, where I can use my abilities as a skilled programmer and writer. Well-versed in remote work, and seek to leverage that experience. Personal and professional references are available upon request.

Professional Experience

Game Developer

Super League | Remote | Dec 2021 – Present

- > Creating new game modes/products for InPvP Minecraft servers.
- > Providing content and updates to modes and products approved by Microsoft.
- > Developing backend services and gameplay mechanics using C#.
- > Receiving, interpreting, and implementing feature specifications.

Lead Developer and Writer

Freudian Creations | Remote | Sept 2017 – Present

- > Maintaining unified gameplay vision between 10+ contributors.
- > Growing playerbase, resulting in a current 30k downloads and 4500 followers.
- > Updating episodic game monthly, with high rate of player retention.
- > Recreating gameplay systems of established properties in Python.

Quality Assurance Tester

Studio Aurum | Remote | Oct 2016 – Aug 2020

- > Bugtested alpha builds of Unity game Monster Crown.
- > Effectively located programming, graphical, and narrative errors.
- > Utilized MantisBT software to log and raise issues.
- > Proposed bugfixes and alternate methods of achieving design goals.

Extended Realities Application Developer

Biogen | Cambridge, MA | July 2019 – Dec 2019

- > Designed interactive models of human biosystems for VR environments.
- > Used the Unity engine to program applications for CAVE systems.
- > Created applications for Oculus and HTC headsets.
- > Adapted platform-specific code for compatibility with other platforms.

Education

Northeastern University | Boston, MA

BS in Computer Science and Game Development

Graduated with Honors | Dean's List, 4 years

Relevant Courses: Web Development, Computer Systems, Object-Oriented Design, Networks and Distributed Systems, Algorithms and Data, Software Development
