

Nicolas Karayakaylar

Groton, NY 13073
neskarayakaylar@gmail.com
(806) 776 - 1015

Experienced game developer seeking full-time employment in the computer science field, where I can use my abilities as a skilled programmer and writer. Well-versed in remote work, and seek to leverage that experience. Personal and professional references are available upon request.

WORK HISTORY

● Lead Developer and Writer

Freudian Creations | September 2017 - Current

- Maintaining unified gameplay vision between 30+ contributors.
- Growing playerbase, resulting in a current 180k downloads and 14k followers.
- Updating episodic game monthly, with high rate of player retention.
- Recreating gameplay systems of established properties in Python.

● Game Developer

Super League | December 2021 - April 2025

- Created new game modes/products for InPvP Minecraft servers.
- Provided content and updates to modes and products approved by Microsoft.
- Developed backend services and gameplay mechanics using C#.
- Received, interpreted, and implemented feature specifications.

● Extended Realities Application Developer

Biogen, Cambridge, MA | July 2019 - December 2019

- Designed interactive models of human biosystems for VR environments.
- Used the Unity engine to program applications for CAVE systems.
- Created applications for Oculus and HTC headsets.
- Adapted platform-specific code for compatibility with other platforms.
